

CHALLIS
ANTIBACTERIAL

All Year Round Anti Bacterial Shower Protection

**SIMPLE REPLACE + RECYCLE
DISPOSABLE SHOWER SCHEME**

**MEETING L8 IS A REQUIREMENT...
EXCEEDING L8 IS A CHOICE.**

The Simplicity of the AG+[®] Scheme

Simple Process – Simple Solution

New quarterly specific colour coded AG+[®] antibacterial disposable shower heads & hoses delivered

1

Old coloured AG+[®] heads & hoses removed & packed in returns boxes

2

New colour AG+[®] shower heads & hoses fitted by maintenance staff at the start of every quarter

3

Pick up of previous quarters old colour shower heads and hoses

4

Destruction and 100% recycling of old shower heads & hoses

5

Thought for the day...

Meeting L8 is
a requirement.

Exceeding L8
is a CHOICE.

Problem:

New HTM 04-01 & L8 compliance is a necessary but expensive, time consuming drain on management time & maintenance resources.

Do you need a simple, quick, effective & cheap solution?

Why you should consider Challis AG+?

Challis AG+ Anti Bacterial Disposable Shower Head & Hose quarterly replacement & recycling scheme provides brand new shower heads & hoses delivered each quarter instead of time consuming cleaning old ones which we pick up and recycle.

Not just meeting but exceeding HTM 04-01 & L8.

Benefits To You

- + Improved patient safety & infection control
- + Cheaper than cleaning
- + Quicker than cleaning
- + Reduced management requirement
- + Reduced demand on your maintenance staff
- + Simple auditing & compliance management
- + Exceeding HTM 04-01 & L8
- + Proven with over 70,000 shower heads already installed in NHS Trusts across the UK
- + Cheaper than you think
- + Already used in hospital trusts local to you
