

10 Reasons to Choose Challis Ag+ Scheme Rather Than Quarterly Clean

1. SAFETY

Ag+ Shower & Hose provide continuous 24/7 Anti Bacterial Protection
Standard Shower & Hoses are Compromised as soon as they are fitted and build bacterial load daily

2. TIME

Time is a valuable resource in short supply
Removal & Replacement of Ag+ units take seconds

Removal, Cleaning & Replacement of standard shower & hose can take 20 minutes. Your staff have better things to do

3. MONEY

Ag+ Scheme Dramatically reduces drain on Time, Manpower and Costs which are often under estimated or completely overlooked when comparing cleaning costs.

4. SIMPLICITY

Take old one off and replace with new one, colour coded for easy identification & Confirmation of change. Easy reporting & Auditing

It does not get simpler than that

5. EFFICIENCY

Quick & easy to fit.
Colour Coded for confirmation
Replaced every quarter

6. EFFECACY

Over 40,000 Shower Heads & hoses installed in NHS Trust across the UK. Proven Performance

7. SUSTAINABILITY

Old units destroyed & 100% recycled. Nothing goes to landfill
No Chemical Hazardous Waste to dispose of

8. CONFIDENCE

Shower & hose replaced every quarter completely removing any possibility of Biofilm build up and bacterial load. Colour coding confirms change ensuring 100% clean start to the quarter.
Standard cleaning can be unreliable and easily compromised or missed

9. RESOURCES

Your staff are an expensive resources which can undoubtedly be used more efficiently elsewhere

10. COMPLIANCE

Ag+ Scheme Exceeds L8 Compliance & is generally regarded as best practise
No Chemical storage, training ,usage, recording & auditing or additional compliance required
