An optimal fusion of design and function. The FM Mattsson 9000E range ushers in a new generation of mixers that are environmentally engineered down to the last detail. The mixer brings beauty and technical perfection to the washroom. Even in its basic version, the mixer has unique functions that save energy without compromising on comfort. Available with a huge range of mix & match accessories this unit can be added to and customised to meet any and all applications. This is an ideal tap for use in application where thermostatic mixing valve is not required but you still need the safety and reassurance of being able to physically limit temperature and flow.
